## Pre-conference workshops

September 11-12, 2010

### Program

Two 2-days workshops will be organized, prior to the conference:

■ "Introduction to geostatistics"

by Prof. Dr. Alexandre Boucher, Stanford University, USA

■ "Model-based geostatistics with environmental and epidemiological applications"

by Prof. Dr. Peter Diggle, Lancaster University, UK

### Workshop fee

- €350 for non-students
- €200 for students

## 8th International Conference on Geostatistics for Environmental Applications

September 13-15, 2010

Ghent University, Belgium

First announcement  
June 2009

<http://www.geoenv.ugent.be/>

## Venue

We are pleased to announce that GeoENV 2010, the 8th International Conference on Geostatistics for Environmental Applications will be held in Ghent, Belgium, on the 13<sup>th</sup> - 15<sup>th</sup> September 2010.

## Organizing Committee

- **Marc Van Meirvenne**, Ghent University, Belgium (chairman)
- **Patrick Bogaert**, Université Catholique de Louvain, Belgium (co-chair)
- **Dimitri D'Or**, Ephesia Consult, Belgium (co-chair)
- **Peter Atkinson**, University of Southampton, UK
- **Roland Froidevaux**, Ephesia Consult, Switzerland
- **Eric Pirard**, GEOMAC, Université de Liège, Belgium
- **Philippe Renard**, University of Neuchâtel, Switzerland

## Conference topics

- Geostatistical methodology, new evolutions
- Spatial statistics
- Multiple point geostatistics
- Spatio-temporal statistics
- Ecology, natural resources
- Hydrology, ground water modelling
- Soil inventory, mapping
- Health, epidemiology, ecotoxicology
- Environmental pollution and risk assessment
- Forestry, agriculture
- Remote & proximal sensing

## Keynote speakers

- **Prof. Dr. Jef Caers**  
Department of Energy Resources Engineering,  
Stanford University, USA  
Theme: Spatial modeling with ensembles in metric space
- **Prof. Dr. Andras Bardossy**  
Institute of Hydraulic Engineering, University of  
Stuttgart, Germany  
Theme: Geostatistical interpolation using copulas
- **Prof. Dr. George Christakos**  
San Diego State University, USA  
Theme: Spatiotemporal Geostatistics and the  
Environment: "Crossing Parmenides' Gates and  
Morrison's Doors"

## Abstract submission

An extended abstract of 2-3 pages (incl. tables, figures, references, ...) should be submitted by 1st March 2010 via e-mail to the symposium secretary: [geoenv10@ugent.be](mailto:geoenv10@ugent.be).

## Publication

The publication procedure will be as follows:

- At registration an extended abstract must be submitted. If accepted, it will be distributed at the conference in a book of abstracts with ISBN.
- Contributors will be invited to submit at the conference a full paper for publication in a special issue of the International Journal "Stochastic Environmental Research and Risk Assessment" (WoS indexed). These papers will go through the regular peer review process of this journal.

## Deadlines

- **1 March 2010** - Abstract submission. An extended abstract of 2-3 pages (incl. figures, tables, refs...) should be sent via e-mail to [geoenv10@ugent.be](mailto:geoenv10@ugent.be).
- **1 May 2010** - Notification of abstract acceptance
- **15 June 2010** - End of early registration
- **23 August 2010** - Deadline for receipt of registration forms
- **At conference** - Full paper submission deadline
- **2-3 months after conference** - Referee comments sent to authors

## Registration fee

	Before 15 June 2010	After 15 June 2010
Non-students	€450	€500
Students	€300	€350

The fees include

- Attendance to the conference
- Conference bag with book of extended abstract
- Special issue of SERRA with the full papers, hard copy sent by mail after publication
- Coffee breaks and lunches
- Conference dinner in "Het Pand"
